

MANAGING A FUTURE SEARCH – A Leadership Workshop with Sandra Janoff

for Business, Non-Profit & Public Sector Leaders, Managers, Consultants, Facilitators

This Workshop will enable people to learn a highly-successful strategic planning method used worldwide by companies and communities for social, technological and economic planning. Future Search is a unique meeting method for strategic planning used by communities and organizations.

Future Search brings people from all walks of life into the same conversation – those with resources, expertise, formal authority and need. People tell stories about their past, present and desired future. Through dialogue they discover. Only then they make concrete action plans.

The method enables large, diverse groups to validate a common vision, take responsibility for action and organize the implementation. All that is being accomplished within 2 ½ days!

In this workshop you will be introduced to a methodology that enables dramatic outcomes in one meeting. Even if you would never do a Future Search you can make use of the methods and principles in many other situations.

You will learn

- ... the methodology within a simulation and real life exercises.
- ... the theory, principles, history and dynamics of Future Search.
- ... about conditions for success and world-wide case examples.
- ... facilitation skills and techniques.

LEAD MORE, CONTROL LESS!

A Master Class with Sandra Janoff

for Professionals in Community, Organization, Group and Personal Development

This seminar – based on the upcoming book by Marv Weisbord & Sandra Janoff titled “Lead More, Control Less: Eight Advanced Leadership Skills that Overturn Convention” to be published October 2015 – is for those who want to take a deeper plunge into managing meetings and managing yourself.

We will explore the realms of practice beyond traditional models, methods and techniques. We will go more deeply into personal and structural issues for leading interactive meetings. Using real issues, we will discover the essentials of controlling what you can and letting go of what you can't control.

Together we will learn more about applying principles for meaningful, energizing meetings. This is another opportunity to change the paradigm that breeds time-wasting meetings to one that promotes holistic, productive meetings.

You will learn from yourself, from each other, and from Sandra Janoff, while discovering new possibilities, alternative strategies and new ways to support groups effectively.

Bring your experiences, cases, questions, theories, and models.

- Help us apply a time-honored method of inquiry and learning to the dilemmas of a new century.
- Discover your own timeless wisdom and the wisdom of the whole, plus more!

A unique 2-day first-hand experience of the power of being able to put your trust in the collective intelligence of the group!

Agenda

Day 1 Saturday, August 22, 2015: 9:30 – 15:30

Day 2 Sunday, August 23, 2015: 9:30 – 15:30

THE FUTURE SEARCH NETWORK Learning Exchange 2015

From Monday, 24 August – Wednesday 26 August 2015 in Berlin, Germany

Join members of the Future Search Network from around the world, as well as Sandra Janoff!
The Learning Exchange is a unique opportunity for you to:

Meet Future Search practitioners and advocates and hear their stories

Share your experience of Future Search and exchange ideas

Learn about what we are doing as a Network around the world

Reflect on who we are touching through our work

Explore how people are using the principles and philosophy of Future Search in meetings of all sizes, every day

Re-energize your practice and yourself, and have fun!

This event is for anyone who is interested in applying Future Search principles in their work and their lives - not only for those who regularly lead Future Searches. Whether you have experience of many Future Searches - or are still trying to get your first one off the ground - the Learning Exchange is for you! You may even pick up the advice and support you need to create your first Future Search. The Learning Exchange is open to members of the Future Search Network and to practitioners working with the principles of Future Search across other large scale, whole systems approaches to change. It will be held in Open Space format.

The cost for the Learning Exchange is 250 Euro (plus 19% VAT) including breaks and lunches. This charge reflects the direct costs of facilities and related expenses for holding the Learning Exchange.
